Reference

Dear Sir,

Steamer "ERLE" - Messrs. Northumberland
Shipbuilding Co's Vessel No. 279 .

With reference to the Newcastle First Entry Report No. 73140, I should be glad if you would be good enough to amend the record shewn thereon of length of ship as per Register to read 399.6 instead of 339.6, the latter figure having been given by a clerical error.

At the same time I have to return herewith the classification certificate of the vessel received this morning for the purpose of a corresponding amendment.

I am, Dear Sir,

Yours faithfully,

W. E. Bryan

The Secretary,
London.
