Lloyd's Register of Shipping.

Port Buenos Aires.

24th. May 1940.

This is to Certify *that I have*

Surveyed the ^{Part} ~~Boiler~~ and Machinery of the steel twin screw steamer "AVELONA STAR", of London, 8369 tons net register, for advancement of M.S.

and that I have transmitted to the Committee of Lloyd's Register of Shipping, London, a Report stating that all recommendations made by me in connection therewith have been carried out to my satisfaction, and that I have

Recommended *that the record of LMC MS with date as previously recommended*

be made in the Register Book in the case of this vessel, when the survey is completed.

PARTS NOW EXAMINED:-

After dynamo, electrical installation examined and megger tested. Starboard main condenser examined and tested, pumping arrangements examined and tested, forced draught fans examined and megger tested. Evaporator, main steam pipes hydraulically tested to 400 Lbs. / \square ". Oil fuel installation examined and tested, Steam smothering arrangements examined and tested.

J. A. Orde
Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
