

Collingwood Buildings,
Newcastle-on-Tyne, 1.

7th October 1936.

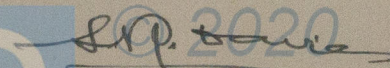

F. D. Coote Esq.,
LONDON.

Dear Mr. Coote,

Many thanks for yours of yesterday regarding the report on Ruston & Hornsby Engines No. 178297. Looking into the First Entry on the Motor Tanker "ARINIA" we see that the Greenock Surveyors have incorporated the reports on two of Ruston & Hornsby's Engines, namely Nos. 178296 & 7. I think one Engine only was fitted in the ship and one in Swan Hunter's job, but we are making the necessary enquiries with a view to, as you say, unravelling the mystery.

With kind regards,

Yours sincerely,

Lloyd's Register
