Reference

Glasgow 20th May 1919

Dear Mr Ames

Your letter to hand - I saw
 the Thrust, Tunnel & Propeller shafts tested
 as stated in my last letter, but did not
 stamp the test pieces on Thrust & Prop shafts
 (only witnessed the tests) Rees British Corporation
 Surveyor saw the shafts finished along with
 Crank shaft forgings.

Now I saw a letter in Beardmore
 yesterday cancelling No 523 and I think
 the whole trouble has arisen with J & G
 Ainslie & Co. letter cancelling them on
17/4/1919 & if I have these forgings to stamp
 test & I will insist on the (2) Couplings
 and being marked with a number, with
 kind regards Yours Sincerely
 Alexander McFadden
