London EC.3

Dear Sir,

T.S.S. NAPIER STAR - PUMPING.

With reference to the pumping plan forwarded to you on the 10th inst., we enclose a sketch showing the type of valve we propose to fit on the oil bunkers abreast the tunnels. As it is not practicable to lead control rods up through the hold we propose to control the valves from the thrust recess, as shown on print enclosed.

We shall be glad to learn, at your earliest convenience, whether this proposal meets with your approval.

Yours faithfully,

For

18 OCT 1901

Dear Sir,  
This enclosed meets with your approval.  
We shall be glad to learn of your earliest convenience, with  
the advice from the other vessels, as shown on your enclosed.  
We are to send you the report of the ship as above to control  
to fit on the old papers and the minute. As it is not possible  
to get them, we enclose a sketch showing the state of affairs as above  
with reference to the building plan forwarded to you on the
