For the CHIEF SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement. — Extract from Sub-Committee's Report, 24/1/92.)

~~When due~~

held but poop deck

This case was before the Committee on the 17th February last when the vessel was allowed to remain classed 100A1 with record of survey 1,99 Cal. and notation of S.S. Cal. No. 2,99 when the poop deck has been permanently repaired or renewed.

In reply to enquiry the Owners now state that the vessel is at Ipswich and that as she will load outwards in London, it is their intention that the repairs to the poop, if required, shall be done on the vessel's arrival in London.

It is submitted this proposal is worthy of approval.

The London Surveyors should be advised.
