Special Survey No.2 due November 1896.

The Owners draw attention to the fact that the vessel underwent considerable damage repairs in Delagoa Bay in January 1896. She has since been trading abroad and they have not had an opportunity of having the survey held. She is at present on passage from Port Stanley, Falkland Islands to Vancouver and as she will load home from that port they crave the Committee's indulgence until her return which they calculate will be in about six ~~or four~~ months.
