

Calcutta 16th Aug^r 1875

Captain Stewart

Dear Sir

I have called at your office several times but failed to find you in. I thought you might wish to see the Maguohia, so called to inform you she is stricken & so I am often coming here going to sheath with Lead & yellow metal her

LM

Yours obediently
W. J. Fator

17th August 1875

My dear Captain Fator

Having been very busy and away I have just seen your note of the 16th inst for which many thanks. I shall be most happy to visit your vessel in the Caladonia dry dock if there is a European Ironman in the dock besides the Superintendent if not I must decline to inspect her as I do not approve of Native Supervision during the Superintendents absence. I beg to hint out to you that all the other docks have a proper European Staff and the Caladonia dock must have the like before I can countenance it.

I am very dear Sir
Yours faithfully
J. Stewart
