

S. S. Jacinta

It is submitted the Surveyors be informed that as this vessel is classed in the Zeehke Register the shafting may be protected as proposed provided arrangements be made to their satisfaction to ensure the shafting & stern gland being at all times accessible.

If access is to be obtained from the Engine room it will be necessary for a watertight door worked from the deck to be fitted on the Engine room bulkhead in way of the opening to the shaft casing.

APRIL

M
7.6.7

It should be pointed out to the Surveyors that the vessel will remain classed in the Zeehke Register only & that any ^{structural} alterations being made to adapt the Zeehke for mercantile purposes must be to their satisfaction.
