Telegraphic Address:
"REGISTER, LIVERPOOL."

Liverpool, 13th Jan^y 1893

Sir

In reply to London letter of
12th January 193 respecting the *B^e Osborne*
I beg to state that the garboard plates
for this vessel were bent hot, on the plate
rolls as is usual where the Builders
as in this case have no garboard plate
bending machine. I am not aware of
any such garboard plate for this or
any other vessel built by Messrs Potts
having failed in bending.

I am Sir

Your obedient servant
J. Lawrence
