S.

31st August, 1892.

Dear Sirs,

I have to thank you for your letter of the 29th instant, respecting the case of your steamer "WAVERLEY", and I note that the leakage in the tank top will have probably been attended to at Calcutta by this time.

The Society's Surveyor at that port has been requested to report the case to the Committee when complete, and when this has been done, the steamer will be eligible for the notation of S.S.No.1,92.

I should add that your intimation that upon the vessel's return to this country the stern frame will be submitted for inspection by the Society's Officers is considered quite satisfactory.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Messrs Williamson Milligan & Co.

LIVERPOOL.
