JUN 8 1915
ANSO 21

Sir,

I beg to inform you that I am in receipt of a letter from the Sjöfartskontoret (The Norwegian Board of Trade) respecting the motor barque "ELFLEDA" in which they point out that in such cases in their opinion the stern tubes ought to be closed in by a watertight bulk head extending to the lower deck beams and a tank top fitted, or a recess made, through which the stern tubes be fitted.

The further mention that in addition there requires to be a watertight bulk head at fore end of ^{the} motorroom as now fitted in this vessel.

The Sjöfartskontoret respectfully request to know your opinion about the case.

I am, Sir,

Your obedient Servant,

Ludw. C. H. Lyshad

The Secretary,
London.
