Enclosures.

9th June, 1937.

Dear Sirs,

E. E.

With reference to my letter of yesterday's date, respecting the proposal to instal two second-hand Cochran Boilers Nos. 16778/9 in Motor Vessels of the "FELLA" class, I now enclose for your guidance copies of the plans of the boilers in question.

I am, Dear Sirs,

Yours faithfully,

Secretary.

Further, the details of the safety valves, as The Surveyors, our letter, are in order, but the valves should be GENOA. and an accumulation test carried out when the boilers are under steam.

I have to point out that while the material of these boilers was made and tested in accordance with the requirements of the Rules, and the material was examined and found to meet the Rules for the intended working pressure, the boilers were not certified by the Society's Surveyors.
