30th April 1926.

Dear Sirs,

With reference to your letter of the 27th instant regarding Triest Report No. 7074 on the Motorship "FELLA", I have to point out that although the breadths and thicknesses of the shell plating are shewn on the Midship Section, it is not clear from the plan how the plating is fitted as regards inner and outer strakes, and I shall therefore be glad if you will kindly forward an outline section giving this information.

I am, Dear Sirs,

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors.
