Reference ..

The Secretary,
Lloyd's Register of Shipping,
London.

Dear Sir,

Reverting to our letter of the 26th instant respecting the steamer "AGNES" we have to-day by book post sent a plan of the donkey boiler for the consideration of the Committee.

The owners have requested us to apply to the Committee for the same working pressure carried at present, viz:- 80 lbs per square inch.

The donkey boiler has been tested by hydraulic pressure to 120 lbs. per square inch and found tight and good.

I am, Dear Sir,

Yours faithfully

A. O. J. J. J.
