

B.E. "Satona"

The present state of the deck is in my opinion not equal to the A1 requirements of our Rules, and could not be put into that condition without renewal. The general wear and condition of beams opposing the owner's wishes.

As this vessel has lost 2 years by being surounded for continuation before the expiration of her original class should the repairs recommended be now executed, the ballast discharged & there found in good condition. I am of opinion her character may be extended by marking her Cont'd A1 - 18 yrs from 1879
