H.

8th August, 1900

Gentlemen,

With reference to the case of the steamer "ETNA", I have to acquaint you that a bower anchor requires to be placed on board to complete the equipment. It is understood that an anchor has been placed on board but the same has not yet been compared with the certificate, and as the vessel is expected to arrive at your port in about a fortnight for repairs, I shall be glad if you will give this matter attention.

I think it well to point out that the Annual Boiler Survey will become due at the end of the present month.

I am, Gentlemen,

Your obedient Servant,

Secretary.

The Surveyors,

G E N O A.
