Sent to Chief Surveyors _____ Received from Chief Surveyors _____

VESSEL'S NAME *Sbk Decapolis* Rpt. _*Gen*_ No. *3/64*

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement."—*Extract from Sub-Committee's Report*, 24/5/92.)

3rd No. *3* ### SURVEY PARTLY HELD.

5.06

When due _____ *When proposed to be completed* _____

Portion of Survey held, &c. _____

The 3rd S.S.No.3,due 5,06,was partly held at Genoa
in October 1906 by examination of the bottom in dry dock,
ranging of cables,removal of mast wedges and examination of
the masts,spars,rigging and decks.

It was proposed to complete the survey on the
vessel's arrival at Buenos Aires,but a letter was
recently received from the Buenos Aires Surveyor stating
                                                    Plate
that the vessel discharged at a port up the River and
no arrangements could be made for completing the survey.

The Genoa Surveyors now state in reply to enquiry
that they have received a letter from the Owner,a copy of
which is attached,from which it appears that the vessel
is now on her way to Falmouth and will probably load there
a cargo for the Mediterranean where the survey will be
completed. The Owner however wishes to know if the
Committee will allow him to send the vessel on a voyage to
America,in the event of his obtaining a good freight,
without first completing the survey.

It is submitted the Genoa Surveyors be requested to
inform the Owner that the survey must be completed
on her arrival in the Mediterranean and before proceeding
thence on another voyage if she is to retain her class,

and they should ascertain from the Owner definitely at what
port the survey will be completed.
