

# Two SS. "Couch"

Shows value  
of stud in stud  
link chain cable  
in preventing  
links from getting  
"on the cross"

Also shows  
that <sup>transverse</sup> breaking  
strength of  
large  $2\frac{5}{16}$ " chain  
cable (without  
stud) is about  
25% only of  
strength when  
tested longitudinally

(per Mr Paul  
Superintendent  
Cradley Heath  
Proving House
