Dear Mr. Scott,

I regret the report has been delayed so long, it is on account of waiting for the parts of links from Glasgow which only came to hand on Friday evening last.

I have been as lenient as possible in the report with reference to Cradley Heath Proving House.

In the treatment of the links by hammer dressing, there is an example of what takes place in "Private" testing. The examination is to discover the defects and hammer them over, instead of taking them out.

Yours faithfully,

H. Green
