Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

ENCLOSURE.

31st August, 1923.

Dear Sir,

M.

I am in receipt of your letter of the 29th instant forwarding one from Mr. Nicol together with amended preliminary freeboard report on the Steamers "CLAN MACNAB", "CLAN MACNAIR", "CLAN MACNEIL" and "CLAN MACNAUGHTON", and with regard thereto I have to acquaint you that, provided the vessels be altered in accordance with the plan as submitted, and the particulars and dimensions now supplied be verified on the completion of the alterations, the amended freeboards set forth in the enclosed memorandum could be recommended for the approval of the Committee, subject to efficient temporary covers being fitted to the tonnage opening as required by the Rules for Shelter Deck Steamers.

I shall be glad if you will inform the Builders accordingly.

When the alterations are completed, the reports of survey should be forwarded as early as possible, in order that freeboards may be assigned by the Committee in sufficient time for the same to be marked and the certificates issued before the vessels leave your port.

TELEGRAMS: REGISTER, GLASGOW.

Glasgow, 29th August, 1923.

The plan forwarded with your letter is being retained in this Office for reference.

I am, Dear Sir,

Yours faithfully,

Assistant to the Secretary.

The Secretary,

GLASGOW.

Winter North Atlantic Line

* If the frames, skin planking, or ceiling are of unusual thickness the breadth of vessel to inside of ceiling should be reported if possible.
† In vessels obtaining an allowance for deck erections under Para. 11 where the sheer drops abaft amidships the height of the B.O.D. is to be taken from the level of the top of the amidship beam.

† State dimensions of freeing port area on back of this form.
‡ The Surveyor should state whether the fall in sheer as reported is measured relative to the water line. If measured relatively to water line.
