

[illegible]

A detailed technical line drawing of a mechanical device, possibly a steam engine or pump, shown in a side profile. The device features a large, horizontal cylindrical body with various components attached. On the left side, there is a large flywheel with a T-shaped handle. Above the main body, there are several pipes, valves, and a circular component with a central knob. A small rectangular box is mounted on the upper part of the device. The drawing is oriented vertically on the page, with the number '89' written at the top center.
