3rd May 1926.

CONSULAR SURVEY.

THIS IS TO CERTIFY that
V. Lookney and G. Majan,

the undersigned Surveyors to this Society did at the request of
H.B.M. Consul at Trieste attend on board the steel screw motor
vessel "CELLINA", 7061 tons gross, belonging to the Navigazione
Libera Triestina, S.A., of Trieste, for the purpose of holding
a Consular Survey.

The vessel has been constructed under the special
survey of Surveyors to this Society and was examined in the
dry dock of the Lloyd Triestino's dockyard at Trieste on the
26th April 1926.

The outside plating, stem, sternframe and rudder
examined, recoated and found in order.

The peaks, holds and tween-decks examined and the
framing, plating, stringers, beams and their connections, pillars,
girders, bulkheads, decks, cargo hatchways, supports and covers,
ventilators and covers examined and found in order.

The motor spaces and tunnel examined throughout and
found in order.

The fore and after peak tanks, deep tank and all
double bottom tanks examined internally and tested.

Watertight door tested, good and efficient.

The boats and their equipment good and complete.

M/V "GALLINA"

-2-

3.5.1926.

Anchors and general equipment complete, all steering arrangements and windlass in working order.

Casings, coamings, skylights, scuppers, side scuttles with fittings and deadlights, handrails and stanchions in order.

The freeboard verified and found correctly marked on the vessel's sides.

MACHINERY.

The Diesel motors, together with all shafting and propeller, compressors, blast air and starting air receivers, electric generators and motors and donkey boiler have been built under special survey with a view to classification in Lloyd's Register of Shipping, and have been visited from time to time during construction.

All safety valves have been adjusted.

The materials and workmanship are good and on completion the whole of the machinery has been examined under full working conditions and found satisfactory.
