Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

3 ENCLOSURES. 28th October, 1921.

Dear Sirs,

With reference to your freeboard report No. 6054 on the S.S. "WENDLAND", I enclose herewith a printed letter giving particulars of the freeboards which have been assigned to this vessel.

With regard to this case I have to inform you the freeboards have been assigned on the assumption that the moulded depth is  $41'-3\frac{7}{8}"$  as shown on the plan of midship section and not  $38'-2"$  as given on your report; the length of the poop is  $65'-2"$  and not  $82'-3"$  which is presumed to include the overhang abaft the sternpost; and the distance between the sill of the lowest side scuttle and the top of the keel is  $31'-5"$ , but I shall be glad if you will confirm these items.

The fee to be charged for freeboard assignment should be £15.

I shall be glad if you will also forward particulars of the supports in No. 6 hatchway on Poop.

The plans, two in number, forwarded to this Office for reference are returned herewith.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
PALMOUTH.

Secretary.
