

RD REPORT on the

M.V. "O. A. Knudsen".

It is submitted the Glasgow office be informed that as the Fresh water and Indian Summer lines are not marked on the vessel's sides, it is concluded that the vessel is not intended to load or trade in such waters, but they should confirm this.

They should also be informed that the draught which is given as 26'9 $\frac{3}{4}$ " appears to be too large, and they should forward particulars showing how this figure has been arrived at.
