

Steamers "GAASTERKERK" and "GROOTEKERK".

Plans of fore body sections, chain locker bulkhead and cast steel stem submitted, in duplicate, by the Rotterdam Surveyors.

It is submitted that provided the arrangements be carried out as shewn and amended on the plans and to the Surveyors satisfaction, the same will merit approval.

The Surveyors should also be informed that the centre line bulkhead in the lower hold may be omitted and a centre deck girder fitted, as desired.

Having regard to the distance between the tank top and the lower deck, also between the lower deck and the main deck, also the form of the vessel at this part, it is considered that panting stringers should be fitted as indicated on the profile plan approved on the 27th ultimo.

*Rev. 2/6/32
Amend. 6/6/32
3 plans
3 retained.*
