

Boiler  
endorsement

Shipbuilders: Messrs. W<sup>m</sup> Doseford.

Yard No. 664.

Makers: Messrs. Stockton Chem. Engto. & Riley Bks. Boiler No. 6384.

It is submitted that the <sup>amended</sup> plan of cylindrical multitubular boiler merits approval for a working pressure of 120 lbs. per sq. inch, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell & butt strap plates.  
viz:- 29-33 tons/in<sup>2</sup>.
