

Q.S.S. "EMPRESS OF BRITAIN"

It is submitted the Southampton Surveyors be informed
that this vessel is due at their port about the 13th instant.

The case has been discussed with the Owners' Superintendent
while they do not wish to proceed with the Convention
onboard survey at this time, it has been arranged that such
dimensions as can be obtained ^{each} as sheers, and particulars of
sections, will be obtained at this time, and they will leave the
remainder of the survey until the vessel is going through her
periodical survey in October next.

The usual particulars should be sent for the
Surveyors' guidance and they should forward such information
as is obtained on form C11.

No fees should be charged at this time.

4th April, 1932.
