# Lloyd's Register of Shipping.

Port Halifax, Nova Scotia,

May 11th, 1940.

**This is to Certify that**

T. MOON

the undersigned Surveyor to this Society did at the request of Mr. D.S. Bauld, Marshall of the Admiralty Court in Prize, examine the Steel Sc. "ERIK BOYE" 2238 gross tons register of Copenhagen, with a view to ascertaining her present value.

This vessel was built at Nakskov in 1924, and is fitted with triple expansion engines of 1380 Indicated Horse Power.

The undersigned examined the vessel whilst lying afloat in Bedford Basin, N. S., on May 9th and 10th, 1940.

The general condition of the hull, machinery, fittings and equipment, so far as could be seen without opening up, is good, and the accommodation ample for the crew carried.

After making due allowances for condition and age, I have fixed the present value based on a replacement basis in Canada at the present time at three hundred and thirty one thousand one hundred and ninety one dollars (\$331,191.00)

*T. Moon*

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
