FREEBOARD REPORT on the

S.S. "Erik Boye".

It is submitted the Surveyor be informed that it is concluded that the channel bars for the weather boards at the openings in the Poop and Bridge bulkheads are riveted to the bulkhead, but he should confirm this.

The Surveyor should also report the length of the bulwarks in the aft well and the number and size of the freeing ports also the height of the bulwarks in both wells.

also height of freeboards
