Dear Sir,

I enclose translation and confirmation of my telegram today re S.S. "GANDARA".

The Owner's Superintendent is unable to get any drawings either from the Builders or B.I. Co's Head Office, and as the vessel's form has been destroyed up to about the 16 ft: draught mark at the stem, with the stem and deep floors all torn away to the collision bulkhead, also from that point aft to No. 1/2 bulkhead the bottom and keel plates are badly set up, it would greatly assist us in rebuilding if we could get some offsets of the different frame stations over this distance.

If you are unable to send these drawings the Dockyard Chief Constructor's Dept. ^{Drawing Office} will put the work in hand as soon as the wreckage is burnt off and cleared away.

I am, Dear Sir,

Yours faithfully

W. J. Matthews
