14th December, 1937.

Dear Sir,

E.

I am in receipt of your letter of the 13th instant, enclosing one from Mr. Lewis together with the analytical results of the samples of calcinated soda added to the boilers of the steamer "IRENE MARIA", and of the ball of salt taken from the edge of an outer butt strap of the starboard boiler.

The Analyst's report, and the observations made by Mr. Lewis, are receiving consideration, and I am much obliged to Mr. Lewis for his attention in this matter.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Secretary,  
GLASGOW.
