Duplicate.

CSC.157/7/40.

Freetown,

Sierra Leone,

14th July, 1940.

SURVEY REPORT.

THIS IS TO CERTIFY that further to my Report No.
CSC.131/6/40, I boarded the steamship

"GOATHLAND"

as she lay afloat in the harbour of Freetown, Sierra Leone,
on the 13th day of July, 1940, for the purpose of examining
the various repairs which had now been effected.

The main engines were turned over in my presence at
half speed ahead and astern, all the machinery appeared to
be working very easily and satisfactorily.

From the survey I have been able to make, as far as
possible, I conscientiously believe the said vessel can pro-
ceed on her voyage.

Chas. Campbell
ENGINEER (B.O.T. No. 54907).

For this my survey and Report I have received the sum of
£5.5.0 (fiveguineas).

Chas. Campbell
ENGINEER (B.O.T. No. 54907).
