

Dear Sirs,

I enclose for transmission to the Greek Government

Form C116

"Giannoulis Gounaris"
D REPORT on the

A Greek Government load line certificate was issued to this ship in April 1936 and, apparently, will be valid until April 1941.

A periodical survey was carried out by the Hull Surveyors at the request of the local Greek Consul, and the certificate endorsed.

It would appear therefore, that an extension of 6 months for the class will be covered by the present load line certificate. The owners will be in a position to signify this.
