2 Encls.

Sirs,

I beg to inform you that I have received, through Society's Surveyors at Genoa, an application for assignment of freeboard to your steamer "ZANOS SIFNEO" under amended Tables and Regulations.

I have therefore the pleasure to send herewith particulars of the new freeboards assigned by the Committee in this case, subject to the openings in the after end of the ship being closed by storm boards fitted the full height of openings if in bolted channel bars, or at least half height fitted in channel bars permanently riveted to the bulkhead.

If you will be so good as to let me know when and at what port these freeboards will be marked on the vessel's side and the condition of the assignment complied with, I shall be pleased to send the necessary instructions in regard to the matter to the Society's Surveyors.

I enclose an account for the statutory fee for this assignment of freeboard, for which I shall be glad to receive a remittance at your convenience.

Brothers
Zaganroq.
