

Lloyd's Register of Shipping,
Collingwood Buildings, Newcastle-on-Tyne, 1.

28th November 1934.

The Secretary,
LONDON.

Dear Sir,

The steamer "HARDINGHAM" is under survey at the Works of The Middle Docks & Engineering Co. Ltd. where permanent repairs to the bottom have been practically completed, and the vessel is shortly proceeding to load.

The Owners have requested that a Timber Freeboard should be assigned to the vessel, and the necessary requirements on board are now being carried out. In view of the urgency of the case the Owners would appreciate an early reply, and we shall be glad to have, if possible, freeboard particulars by wire tomorrow.

We are, Dear Sir,
Yours faithfully,
THE SURVEYORS,
per

R. G. Lumb
