

Ship's Name. Gross Tonnage. Official Number. Type of Ship. Date of Build.

s.s. "HANNAH".

It is submitted the Hull Surveyors be informed that the cargo and timber freeboards as computed in this Office are as given on the accompanying forms, and these freeboards are subject to the Convention requirements in each case being complied with.

They should be further informed that in the cases of Swedish vessels the report is required to be forwarded from this Office to the Gothenburg Surveyors who issue the assignment letters together with the conditions of assignment.

On receipt of the information requested in the Secretary's letter of today's date, the report forms will be forwarded to the Gothenburg Surveyors for action.

In addition to the information requested as above the Surveyors should forward a sketch of the hatch beams showing how the fore and afters are supported at the beams.
