

W 405-0168

BOARD REPORT on the

Ss HANNAH

It is submitted the Hull Surveyors be advised that this ship is expected to sail from Yarmouth to Hull on the 8th instant and it is understood that the alterations for the carriage of timber deck cargoes will be carried out at that port. The Surveyors should be requested to forward full particulars of these alterations. They should also state whether the auxiliary means of stowage is enclosed in the deckhouse on the raised quarter deck aft. The dimensions and particulars of this house should be given. The Surveyors should further be informed that owing to the presence of cargo in the holds, it was not possible to obtain details of any sanitary discharge pipes when this ship was surveyed at Yarmouth and that full particulars of these pipes should be forwarded to their office.
