GENOA.

Dear Sirs,

INTERNATIONAL CONVENTION FREEBOARDS

Many thanks for your favour of the 4th instant which had my best attention.

In reply to your information I would point out that the

S.S. "MAGYAR" may pass the inspection in question in Braila where she is due towards the 20th instant.

S.S. "RAKOCZI FRENC" is lying at Trieste and should be able to pass the inspection at any moment after the 10th instant.

S.S. "CZARDA" & "PUSZTA" are now in the North and since Mr. Ives will be here on the 10th instant, I shall discuss with him the whole matter and let you know.

S.S. "BALATON" & "BADASCONY" are now trading North/Africa/Baltic and since, so to say, they are every day in another port, I shall have to see now exactly when and where they might be inspected.

S.S. "TISZA" & "TATRA" have definitely been laid up and I think they will be sold for breaking up (they are too old) so that I don't think it is worth while touching them at all.

I shall make use of the forms you kindly put at my disposal and revert to this matter as soon as possible.
