WOKINGHAM. BERKS.

Dear Sir,

S.S. "HOLYSTONE"

We thank you for your letter of the 28th instant drawing our attention to work remaining to be carried out in the fore peak and after peak tanks when a notation of "Examined 1-41" will be assigned to the vessel in respect of the present survey to indicate maintenance of class until January 1942. It is our intention to carry out these repairs on vessel's arrival in this country.

We also note that with regard to the Boiler Survey, main boilers have to be re-surveyed before the end of July next and that to complete the donkey boiler survey this boiler has to be examined in the water space, its feed tank valve renewed and safety valves adjusted.

Yours faithfully,

FOR
