23rd December, 1920.

Dear Mr. Thomas,

Many thanks for your letter of the 21st instant, regarding the Steamer "GEIERFELS" and the "SPES", the contents of which I carefully note.

I heartily agree with the concluding remark, and hope that you will have favourable news to report in the near future. With kindest regards and best wishes of the Season.

Yours faithfully,

A.T. Thomas, Esq.,  
LEITH.

P.S. Since writing the above, we have heard from the Ministry of Shipping that the "SPES" has been sold to the Ellerman Lines, Ltd. This will of course be subject to the usual drydocking.

I take the opportunity also to mention that we have just heard that the S.S. "EIDER", a vessel of 1038 tons gross, which has been laid up at your port for sale (see your Report of 8th November) has now been disposed of to Messrs. H.G. Harper & Co., for the Alfred Calvert Shipping, Ltd., and it might be worth while making some enquiries about her. She has not been classed by Lloyd's Register.
