

s/s. "Baron Soral"
Wolfsburg ex

The machinery of this vessel was commenced under Special Survey and in accordance with approved plans, by the Bremen Surveyors at Geestemünde from December 1914 to March 1915 when the Special Survey was discontinued owing to the war.

A first entry report has now been received from the Bremen Surveyors of the work done under survey. It is submitted, if the Owners desire to have the vessel classed, that the machinery, boilers & pumping arrangement will require to be submitted to a special periodical survey and to be satisfactorily reported upon.
