ENCLOSURE.

15th February, 1926.

Dear Sirs,

M. I duly received your letter of the 10th instant forwarding a sketch showing a profile and plan of "D" deck with the relative houses in respect of Messrs. Cantiere ed Officine Meridionale. Baia, Yard Nos. 14 and 15, and your remarks have been noted.

With regard thereto I have to inform you that before the Builders' enquiries can be answered it will be necessary for you to forward full particulars on form 11b.

I may say, however, that for freeboard purposes "D" deck is the weather deck, and you should report full particulars of the erections on this deck, observing that the spaces in way of the ship's side openings are considered to be open wells.

In view of the proposal to leave the ends of the bridges open, all openings in such spaces which provide communication with the spaces below "D" deck should be fitted with battening arrangements, and you should report particulars of such openings.

The sketch in question is returned herewith, and I shall be glad if you will fill in particulars of the openings.
