Dear Sirs,

E. I am in receipt of your letter of the 10th instant, forwarding for consideration a plan in duplicate of Boilers Nos. 966/7 made by Messrs. Koninklijke Maats. "De Schelde" and intended to be fitted on board the s.s. "NOORD-HOLLAND", and with regard thereto, I have to acquaint you that the same will be approved for a working pressure of 180 lb. per sq. inch, provided the pitch of the rivets in the outer row at the longitudinal edges of the manhole compensating ring be not less than 6.5/16", and the boilers be constructed under the usual conditions of survey and testing, and to your entire satisfaction.

One copy of the plan in question is returned herewith, and the duplicate copy has been retained for reference.

I am, Dear Sirs,
Yours faithfully,
