71, Fenchurch Street, E.C. 3.

ENCLOSURE.

10th September, 1937.

Dear Sirs,

s.s. "TIBERTON".

E.

I duly received your letters of the 3rd and 8th instant enclosing plans, in duplicate, of Boilers Nos. 6319-20-21 to be constructed by Messrs. Stockton Chemical Engineers & Riley Boilers Ld. for the above vessel.

With regard thereto I have to acquaint you that the amended plan of ^{these} cylindrical boilers will be approved for a working pressure of 100 lb. per sq. inch, provided the position of two longitudinal through stays be amended as shown thereon and the boilers be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates and butt straps, viz:- 29/33 tons per sq. inch.

One copy of the amended plan is returned herewith, and the duplicate plan is being retained. The plans enclosed with your letter of the 3rd instant have been cancelled.

I am, Dear Sirs,
Yours faithfully,

The Surveyors,
MIDDLESBROUGH.
