

S.S. "THURSTON".

IT IS SUBMITTED the West Hartlepool Surveyors be requested to supply the following information:-

1. Give size of opening, number of tarpaulins fitted and full particulars of battening down arrangements of trimming hatches in bridge space.
2. Give position and full details of all air pipes other than those in the wells on the freeboard deck.
3. State whether storm valves are fitted to the bridge space scuppers which have their outlet 16" below the upper deck.
4. State whether the storm boards of the tonnage doorway in the forecastle front are fitted for the full height of the opening.
5. In connexion with the Owners' request for a timber deck cargo assignment, the Surveyors should forward all the available particulars as required by Rules LXXXVII of the International Load Line Convention.
