

s.s. "CITY OF GHENT."

It is submitted the Dublin Surveyor be advised regarding the freeboard Renewal Survey which has been held at Antwerp. A copy of the Antwerp letter dated the 24th instant should also be sent and he should be requested to confer with the Owners with a view to all necessary repairs being carried out.

If the Owner desires to postpone the repairs, he should examine the bridge side plating and report if in his opinion repairs may be deferred for a short period as suggested by the Antwerp Surveyors and should state for what period he considers the present structure may be regarded as efficient.
