

131.

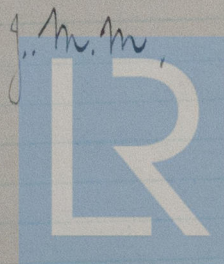

BOARD REPORT on the 'SVARTON'

Convention ordinary and timber deck cargo fuelboards have been computed on the basis of the information supplied on form C11 ~~on the assumption that the openings on the bridge front are closed by appliances at least equivalent to Class I.~~ It is submitted the forms be sent to Mr Bulow together with the fuelboard certificate and copies.

As the Convention cargo fuelboard are less favourable than those at present assigned the existing fuelboard may be retained & the certificates have been prepared accordingly.
