

W 438-0235-

FREEBOARD REPORT on the British Triumph Tanker.

It is submitted the Freeboards given on the accompanying form being those required by the Tables merit approval.

It is assumed that the open rails are fitted for at least half the length of the exposed portions of the weather deck but the Surveyor should confirm this. It has also been assumed that the wood doors in the fore-castle are equivalent in strength to storm boards, if this is not the case, full particulars of size and materials should be forwarded to this office as the summer freeboard would be increased by about half an inch.

✓ 2 Plans to be returned Asgble. J.R. & Bldes
✓ Hatch plan to be retained (copy J.R.) 23/10/36.
