Received from Chief Ship Surveyor.....

VESSEL'S NAME

"GAMBHIRA".

Rpt.

Hul.

No. 50333.

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

The conditions to which the class is subject and the case generally are fully stated in the endorsement dated the 16th ultimo.

The 2nd Special Survey No.2, became due 3,39.

In lieu of scrapping the vessel she was submitted for inspection with a view to alternative recommendations (a) for the completion of the Special Survey, (b) for such repairs as would maintain the vessel's efficiency for 12 months.

The Surveyors report has now come to hand.

The Special Survey has been commenced and a General Examination also made with the vessel in dry dock.

Particulars of the extensive repairs necessary under the alternative schemes referred to above are set forth in the attached specification.

These repairs include renewals or repairs to decks, framing, floors, pillaring, bunkers, rigging etc., and those to the decks are of an extensive character.

The difference between repairs necessary under schemes (a) and (b) respectively is not important and it is to be noted that other repairs will probably be found to be necessary as the work proceeds.

It is stated the vessel has now been taken over by the Admiralty and that she has left Hull. The Surveyors are consequently unable to state where or when the Survey and repairs will be carried out.

It is submitted action be deferred.

The Certificate of Classification to be endorsed *Cargo Units not fitted* and the same notation to be printed in the Register Book.
